IV. Describe the proposed changes to the program as well as the rationale for making the specific changes and include any relevant supporting data.
   a) Request to change ARC 326 from 2-unit course to a 3-unit course, shifting the plan units from 165-units to 166-units.
      Content in a prior course that was discontinued (Programming) had been associated with other different courses but has now settled into ARC 326. As a result of that new content (a new module), we are seeking to reinstate the 3 credits that that course used to have, but which were pared down in an earlier curricular overhaul. On August 3rd, 2021, the School Curriculum Committee voted for the following motion: Change ARC 326 | Practice I (2-CU) to ARC 326 | Practice I: Pre-design (3-CU), combing site design and programming into one course. This in turn would add 1-CU to the degree. 165-units to 166-units.
