

STUDENT SERVICES FEE SURVEY SUMMARY | FALL 2021

In Fall 2021, the Students Services Fee Survey was deployed to all enrolled Fall 2021 Main Campus students. The survey was conducted November 1 to 14, 2021. Students received an email inviting them to participate in the survey with 2,461 responding and included in analysis representing a 6.4% response rate. Participating students were offered the option of entering a drawing for a \$50 gift certificate upon completion.

The University of Arizona [Student Services Fee](#) (SSF) Board allocates approximately \$3 million each year to departments within UArizona. The Student Services Fee funds projects that enhance the student experience and positively impact student life.

The survey gathers undergraduate and graduate student opinion to assist in the prioritization of services considered for fee funding.

UArizona students were asked to indicate how much they would support student services fees being invested across 26 potential priority areas including academic support, career related opportunities, financial aid and basic needs, and student safety and support initiatives.

Students were asked to indicate their level of support for priority funding on a five-point scale of “Do not Support, Slightly Support, Somewhat Support, Strongly Support, and This is Essential”. Student support was calculated based on the percentage of respondents who indicated “Strongly Support” or “This is Essential.”

Women and graduate students were overrepresented in the survey respondents compared to the Fall 2021 Census Main campus student population. Results in this report were weighted to account for non-response bias and generalize results to the UArizona population. A complete table of respondent demographics and weighted adjustments can be found in [Appendix A](#).

Results have a 95% confidence level and +/- 2% margin of error. That is, if the survey was conducted 100 times, the actual percentages of the population would be within 2 percentage points above or below the percentages reported here in 95 out of 100 surveys. Full survey results can be found in [Appendix B](#). For more information, email AssessmentResearch@arizona.edu.

Table 1.	Fall 2021 Main Campus (N=38,534) %	Survey Respondents Weighted (N=2,461) %

1) Represents undergraduate students only

STUDENT PRIORITIES

Students overwhelmingly support initiatives that ensure students have access to basic needs such as food and housing (82%), support students who are experiencing crises, life traumas, and other barriers that impede success (81%), academic support services (77%), career counseling and exploration (76%), research opportunities with faculty (75%), and scholarships and financial aid information (75%).

Students indicating strong support or identifying an initiative as essential.

Eight in ten students would prioritize initiatives that ensure students have access to basic needs and support in times of crisis.

ESSENTIAL INITIATIVES

The visual below shows the top 10 initiatives with the most students rating as ‘essential’. Unsurprisingly, many of the initiatives that saw high support in Figure 1 also rank among the top 10 when considering those who expressed they were essential for funding.

However, while campus safety and security received 71% support and ranked 8th among overall student support, it is ranked 3rd among essential initiatives with 44% of respondents identifying it as essential.

10 priority areas were identified as essential by more than a third of respondents

Female students were far more likely to indicate that campus security was a priority than male students.

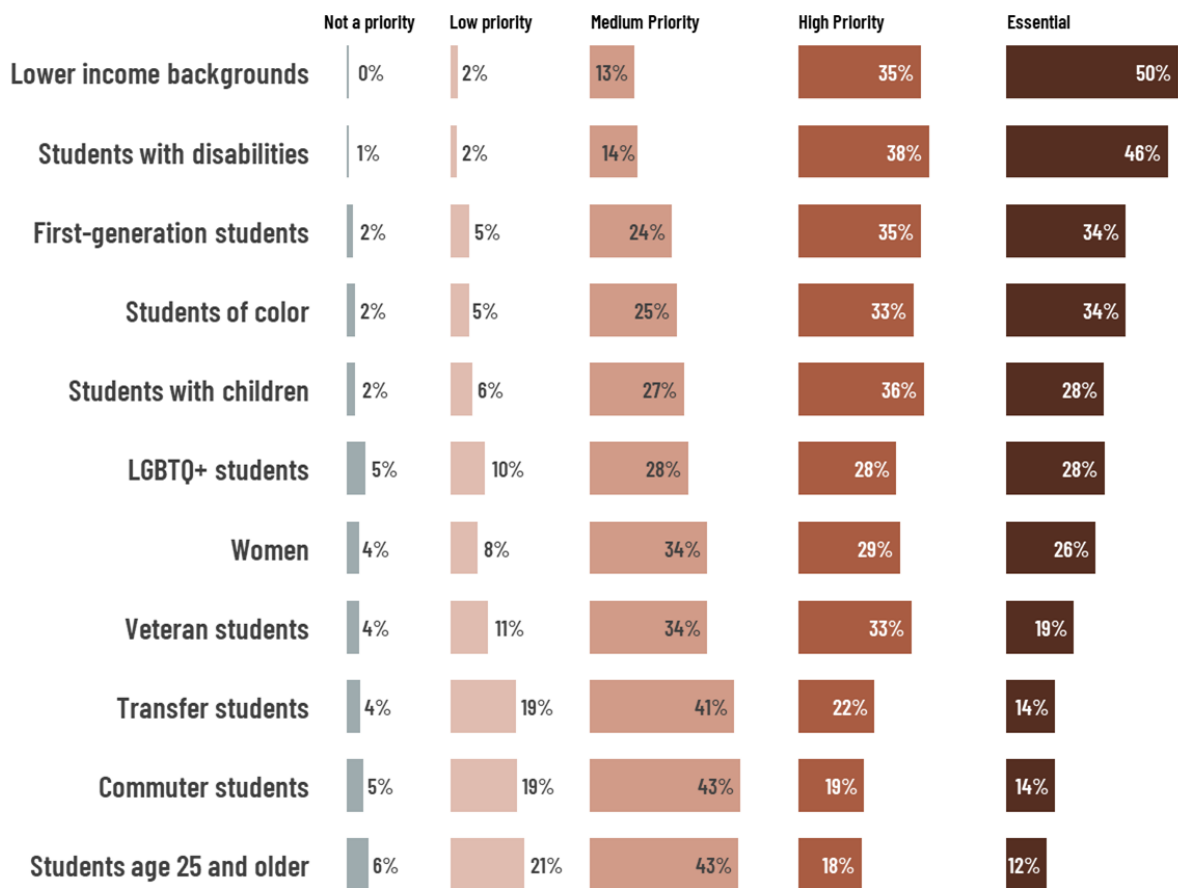

78% of female students support funding and 50% said it was essential, compared to male students with 61% expressing support and 37% identifying it as essential.

SUPPORT FOR SPECIFIC CAMPUS POPULATIONS

Initiatives supporting specific campus populations received support from 65% of students.

The vast majority (93%) of students reported they generally supported initiatives focused on these groups from slightly support to this is essential. These students were then asked to indicate their level of support for priority funding on a five-point scale of “Not a priority” to “Essential” to inform prioritization of Student Service Fee investment.

Support for funding initiatives focused on special campus populations was highest for programs assisting historically under-represented students.

Students from lower income backgrounds received the most support (85% rated as high priority). Similarly, 84% support initiatives focused on students with disabilities and 70% support first-generation students.

International students (10%) and graduate students (5%) were identified in open-response feedback as groups not currently solicited within the survey, but these groups expressed a need for engagement opportunities, and financial and academic support.

COMPARISON OF PRIORITIES BY STUDENT GROUPS

Top 10 Supported Initiatives by Academic Career

The top supported initiatives identified as strongly supported or essential by students were similar by academic career, though graduate and professional students highly rated support for academic travel and professional development (73%) compared to undergraduates (58%).

Undergraduate		Graduate/Professional	
Student basic needs	83%	Students experiencing crises	77%
Students experiencing crises	82%	Student basic needs	75%
Academic support services	79%	Research opportunities with faculty	75%
Career counseling	78%	Academic travel and professional development	73%
Financial aid information	78%	Career counseling	65%
Research opportunities with faculty	76%	Health and wellness	64%
Campus safety and security	74%	Financial aid information	63%
On-campus jobs	73%	Academic support services	63%
Health and wellness	73%	Career preparation	62%
Career preparation	72%	Experiential Learning (Internships, Service)	62%

Graduate students were far more likely to support funding for academic travel, presentations, and professional development initiatives.

73% of graduate students support funding, and 38% indicate it is essential. Compared to 58% support among undergraduates with only 18% essential.

Top 10 Supported Initiatives by Ethnicity

The top supported initiatives identified as strongly supported or essential by students are reported by student ethnicity.

African American		Asian American	
Student basic needs	92%	Academic support services	83%
Students experiencing crises	90%	Student basic needs	82%

OPEN ENDED RESPONSE CATEGORIZATIONS

An open-ended question was included to capture any programs or services that students did not see on the survey but felt should be given Student Services Fee funding priority in the future. Of the 2,461 survey respondents, 325 contributed additional insights. Responses were categorized by theme here and further described with frequently reported examples.

MAJOR THEMES

Health and Wellness	123 (38%)	Financial	65 (20%)
Campus Safety/ EMS	23%	Academic Financial Aid	35%

		Graduate Degree Advising	11%

UAEMS - The volunteer EMS agency on campus was specifically mentioned 16 times

"Bereavement Services for students who are grieving, travelling for funerary services, free grief counselling for students, policy for academic responses to grieving students. Currently there is nothing in place to support students in this situation, and it is unfortunately common for students to experience, especially since the pandemic."

– Senior

"The week at a glance"... "A central master calendar where the University, Athletics Department, all Academic Units, the Wildcat Events Board and possibly some of the larger clubs would be amazing."

– First-Year

"Services like Compost Cats. The current student body wants to make more sustainable choices, the campus must provide more services like compost cats throughout campus."

– Sophomore

"Environmental programs and clubs such as The Restoration Club and The School Garden Program who do work and projects around UA campus."

– Senior

OPEN RESPONSE SUBMISSIONS OF MAJOR THEMES

Health and Wellness	
Campus Safety/ EMS	University of Arizona Emergency Medical Services (UAEMS), security cameras, parking garage safety, blue-light stations, safety training/courses
Mental Health	CAPS, counseling, psychiatric, students in crises, medication, bereavement, depression, anxiety
Nutritious Food	Affordable healthier options, campus pantry, community gardens, affordable groceries on campus, vegan options
Cultural Engagement and Outreach	Community building, social events, promoting diversity within programs, support for students with undocumented family, DACA students. Mentions of specific campus groups
Medical/Physical Wellness	Medical care costs, access to care, disability support, exercise, health awareness events
Affordable Housing	Housing aid, rent assistance, displaced students, asylum seekers, homelessness
Environmental	Sustainability, environmental impact, recycling, waste reduction
Childcare Support	Daycare/preschool on campus, single parents
Clothing	Campus Closet, Queer closet, promotion
Legal Services	Legal assistance for international students and on-campus victims
Financial	
Academic Financial Aid	Tuition waivers, scholarships, program fee scholarships (SALT and Tutoring), school fee assistance beyond tuition. Mentions of specific populations needing assistance.
Living Expenses	Comments related to financial support for rent and other basic needs. These were specifically mentions of financial assistance
Emergency Assistance	Student Emergency Fund, unexpected expenses and crises that carry a financial component.
Better Paid Opportunities	Higher wages for student workers, Residence Assistances, and Graduate Assistants. Summer job opportunities, legal work for international students
Transportation/Parking Costs	Cheaper parking, Cat Tran services, financial and logistic struggles of commuter students
Financial Literacy	Budgets, loan counseling, financial advice
Extracurricular	
Student Clubs or Associations	Club fairs and booth events, ASUA, Greek Life, social, interest based and cultural clubs
Sports/Recreation	Intramural sports, game spaces, festivals, tailgates, event promotion, swings
Creative Expression	Fine arts, maker spaces, woodworking, dance, music
Cultural Engagement/Outreach	Social engagement/outreach to local cultural groups, mentions of specific cultural or religion
Research / Experiential	Study abroad, local volunteer and internship, research opportunities
Academic	
Tutoring and Academic Skills	Student support programs, DRC, ASEMS, Think Tank programs, expanded tutoring hours
Technology and Equipment	Wi-Fi stability, printing services, Canvas LMS Suggestion, lecture recordings, lab equipment
Library Services	Expanded library hours, printing fees
Academic Outreach / Engagement	Outreach to community to promote access and pathways
Advising	Access to academic advising and help with major selection
Post-Graduation	
Career Counseling	Advising on career / major alignment, career placement and planning
Mentorship/Networking	Mentoring related to graduate studies, networking resources
Licensing/Certifications and Skills Training	Practical skills building, partnership with local trade organizations, licensing exams
Graduate Degree Advising	Preparing for careers after graduate school

APPENDICES
APPENDIX A: SURVEY RESPONDENTS & POPULATION DEMOGRAPHICS

Women and undergraduate students were overrepresented among survey respondents compared to the campus population, which was accounted for with survey weighting to generalize to the student population.

	Fall 2021 Main Campus (N= 38,534)		Survey Respondents (N=2,461)		Weighted
