Biomedical Sciences

CC: Michael Staten, Bart Cardon Associate Dean for Academic Programs College of Agriculture
and Life Sciences 

SUBJECT: Disestablishment of the Animal and Biomedical Industries BS

Dear Mr. Heileman:

With this memo I would like to request the disestablishment of the Animal and Biomedical Industries BS degree in our School. The justification for this request is based on the very low enrollment we had since the program was created. We had two students enrolled in this program as their major. The students remained in their primary major, either Animal Sciences or Veterinary Sciences. The students were not affected in their course work or credits. In advance, I thank you for your attention to this request. Please do not hesitate to contact me if you have any questions.
